We guarantee our seeds according to the quality purchased to be of the average standard of vitality, and the purchaser is at liberty to confirm this by submitting samples to a reputable analyst at his own expense. Our seeds have been carefully grown, but we give no warranty expressed or implied, as to growth, productiveness or any other matter connected with our seed, nor can we be held in any way responsible for the crop. Our seeds are sold only on these conditions.

and I am very sorry about it. I will do my best to make up for it, and I hope you will forgive me.

**BUY AMERICAN!**

WHY IT PAYS TO INSIST UPON GETTING

## MICHIGAN PEAT—SOIL SPONGE NATURE'S FINEST SOIL BUILDER

**M**ICHIGAN PEAT—SOIL SPONGE is rich brown peat moss, produced at Capac, Michigan from **America's Choicest Peat Beds**. It is pure organic vegetable matter which creates soil fertility—develops vigorous root growth—loosens clay soils and binds sandy ones. Briefly, MPSS replaces lost nutrients, enriches and re-vitalizes your soil — **Economically — Efficiently — Permanently!**

*Here are a few comparative facts:—*

1— <b>Volume of ton</b>	MPSS is shipped with less water than humus. Being dryer, each ton contains more actual "peat" so that fewer tons are needed to accomplish the same results.
2— <b>Organic Content</b>	MPSS is approximately 97% organic; the highest found in any similar peat or humus product. Extra organic means extra money to you and extra value to your soil!
3— <b>Coverage</b>	MPSS averages $3\frac{1}{4}$ cubic yards to the ton; humus less than 2 yards. MPSS being drier, lighter and more fibrous covers greater areas with less tonnage and labor.
4— <b>Duration</b>	MPSS is "humus forming" but outlasts humus in the soil. It assimilates rapidly and will not float or wash away.
5— <b>Government Specifications</b>	MPSS is recognized as the <b>Standard American Peat</b> . Government Experts approve it and have specified it in contracts replacing imported foreign baled peats.

**Michigan Peat—Soil Sponge** holds the U. S. Government Contract for **Peat** for 1939. It is packed in 25 lb., 50 lb. and 100 lb. bags. Also in 150 lb. crates — lowest prices on truckloads and carloads. Write for sample.

**INSURE RESULTS—USE MICHIGAN PEAT!**
